

COMPENDIUM OF WORKERS' COMPENSATION STATISTICS AUSTRALIA 2004–05

May 2007

Australian Government

Australian Safety and Compensation Council

Contents

Foreword	iii
Summary of findings	7
Part A: Summary of new claims, 2004–05p¹	9
New claims by gender and nature of claim	9
Table 1 New claims: number, percentage of total, incidence rate and frequency rate by gender and nature of claim, 2004–05p.....	9
New claims by age	10
Table 2 New claims: number, percentage of total, incidence rate and frequency rate by age, 2004–05p.....	10
Figure 1a New claims: percentage of claims by gender and age, 2004–05p.....	11
Figure 1b New claims: incidence rate by gender and age, 2004–05p	11
Figure 1c New claims: frequency rate by gender and age, 2004–05p	12
New claims by industry	12
Table 3a New claims: number of claims by industry, 2004–05p	13
Figure 2a New claims: incidence rate by industry, 2004–05p	13
Table 3b New claims: industry sub-categories with the ten highest incidence rates, 2004–05p	14
Figure 2b New claims: frequency rate by industry, 2004–05p.....	14
New claims by occupation	15
Table 4a New claims: number of claims by occupation, 2004–05p	15
Figure 3a New claims: incidence rate by occupation, 2004–05p	15
Table 4b New claims: occupation sub-categories with the ten highest incidence rates, 2004–05p	16
Figure 3b New claims: frequency rate by occupation, 2004–05p	16
New claims by industry and occupation	17
New claims by the nature of injury or disease	17
Figure 4 New claims: percentage of claims by nature of injury or disease, 2004–05p.....	17
New claims by bodily location of injury or disease	18
Figure 5 New claims: percentage of claims by bodily location of injury or disease, 2004–05p	18
New claims by mechanism of injury or disease	18
Figure 6 New claims: percentage of claims by mechanism of injury or disease, 2004–05p	19
New claims by breakdown agency of injury or disease	19
Figure 7 New claims: percentage of claims by breakdown agency of injury or disease, 2004–05p	19

1. The letter 'p' following the year indicates that the data is preliminary.

Part B: Compensated fatalities, 2004–05p	21
Compensated fatalities by gender	21
Figure 8 Compensated fatalities: number by age and gender, 2004–05p	21
Compensated fatalities by industry	22
Table 5 Compensated fatalities: number, incidence rate and frequency rate by industry, 2004–05p	22
Figure 9 Compensated fatalities: ten highest industry sub-categories, 2004–05p.....	23
Compensated fatalities by occupation	23
Table 6 Compensated fatalities: number, incidence rate and frequency rate by occupation, 2004–05p.....	23
Figure 10 Compensated fatalities: fourteen highest detailed occupation groups, 2004–05p 24	
Compensated fatalities by age	24
Table 7 Compensated fatalities: number, incidence rate and frequency rate by age, 2004–05p	24
Compensated fatalities by nature of injury or disease.....	25
Figure 11 Compensated fatalities: number by nature of injury or disease, 2004–05p.....	25
Compensated fatalities by mechanism of injury or disease	25
Figure 12 Compensated fatalities: number by mechanism of injury or disease, 2004–05p..	26
Compensated fatalities by breakdown agency	26
Figure 13 Compensated fatalities: number by breakdown agency of injury or disease, 2004–05p	26
Part C: Trends over time, 1996–97 to 2003–04.....	27
Figure 14a New claims: number of claims by year.....	27
Figure 14b New claims: incidence rate by year.....	28
Figure 14c New claims: frequency rate by year	28
Compensated claims by gender	28
Table 8 New claims: number of claims, incidence rate and frequency rate by nature and gender by year	29
Compensated claims by age of employee.....	30
Table 9 New claims: number of claims, incidence rate and frequency rate by age by year	31
Compensated claims by industry.....	32
Table 10a New claims: number of claims, incidence rate and frequency rate by industry by year.....	33
Table 10b New claims: median time lost and median direct cost by industry by year	34
Compensated claims by nature of injury or disease.....	35
Table 11a New claims: number of claims by nature of injury or disease by year.....	35
Table 11b New claims: median time lost and median direct cost by nature of injury or disease by year.....	36
Compensated claims by mechanism of injury or disease.....	37
Table 12a New claims: number of claims by mechanism of injury or disease by year.....	37
Table 12b New claims: median time lost and median direct cost by mechanism of injury or disease by year	38
Compensated fatality claims by industry.....	38
Table 13 Compensated fatalities: number of fatalities and incidence rate by industry by year	39

Part D: Priority industry profiles	41
Agriculture, forestry and fishing.....	41
An overview	41
The incidence rate for all compensated claims.....	41
Table 14 Agriculture, forestry and fishing industry: number and incidence rate by industry sub-division and group, by year	42
Characteristics of claims.....	41
Figure 15 Agriculture, forestry and fishing industry: incidence rate by gender and age, 2004–05p	43
Cost and duration of claims.....	43
Figure 16a Agriculture, forestry and fishing industry: median time lost from work by year	43
Figure 16b Agriculture, forestry and fishing industry: median direct cost by year	44
Fatalities.....	44
Table 15 Agriculture, forestry and fishing industry: number and incidence rate of compensated fatalities by industry sub-division and group, by year	45
Figure 17 Agriculture, forestry and fishing industry: fatality incidence rate by age, years 2002–03 to 2004–05p combined	45
Construction	46
An overview	46
The incidence rate for all compensated claims.....	46
Table 16 Construction industry: number and incidence rate by industry sub-division and group, by year	46
Characteristics of claims.....	47
Figure 18 Construction industry: incidence rate by gender and age, 2004–05p	47
Cost and duration of claims.....	48
Figure 19a Construction industry: median time lost from work by year	48
Figure 19b Construction industry: median direct cost by year	49
Fatalities.....	49
Table 17 Construction industry: number and incidence rate of compensated fatalities by industry sub-division and group, by year	49
Figure 20 Construction industry: fatality incidence rate by age, years 2002–03 to 2004–05p combined	50
Health and community services.....	51
An overview	51
The incidence rate for all compensated claims.....	51
Table 18 Health and community services industry: number and incidence rate by industry sub-division and group, by year	51
Characteristics of claims.....	52
Figure 21 Health and community services industry: incidence rate by gender and age, 2004–05p	52
Cost and duration of claims.....	53
Figure 22a Health and community services industry: median time lost from work by year	53
Figure 22b Health and community services industry: median direct cost by year	54
Fatalities.....	54
Table 19 Health and community services industry: number and incidence rate of compensated fatalities by industry sub-division and group, by year	54

Figure 23 Health and community services industry: fatality incidence rate by age, years 1999–00 to 2004–05p combined.....	55
---	----

Manufacturing..... 56

An overview56

The incidence rate for all compensated claims.....56

Table 20 Manufacturing industry: number and incidence rate by industry sub-division, by year.....	56
---	----

Characteristics of claims.....57

Figure 24 Manufacturing industry: incidence rate by gender and age, 2004–05p.....	57
---	----

Cost and duration of claims.....58

Figure 25a Manufacturing industry: median time lost from work by year	58
---	----

Figure 25b Manufacturing industry: median direct cost by year	59
---	----

Fatalities.....59
