Talking points

	Consider discussing the following:	Add your own talking points here:
0	Question: How would you, as workers like to be consulted on work health and safety?	
0	Question: Would anyone like to raise any health or safety concerns relating to our work and/or the workplace?	
0	Introduce your Health and Safety Representative! Explain their role within your workplace and how they input into safety decisions.	
Q	Describe: A safety hazard relevant to your workplace and the control/s that have been implemented to manage them. Are the controls still effective?	
Q	Discuss: Where workers can find further information on WHS and procedures.	
0	Question: Is the training, guidance and supervision provided enough to help you be safe in your role?	
0	Consider: If there's one thing you could change about work health and safety in	

our workplace, what would it be?
