

Model Work Health and Safety Regulations for Mining - Public Comment Response Form

Individual/Organisational name: Bruce Ham	
Regulations Chapter 9: Mines	
Part 9.7	
Regulation	Comment
	<p>Part 9.7 Mine Records</p> <p>Recording the incident by itself is not very illuminating. Not only should the incident be recorded, but the report on the investigation and related causal factors and preventative measures should also be recorded</p> <p>Additional information is also required on injuries to report travel death/ injury and also total permanent disability that may have had mine work as a contributing factor.</p>
